danypa2204@gmail.com | 312-536-9717 | Chicago, IL 60632

Personal Summary

I am a junior at Saint Xavier University majoring in Computer Science. I am currently exploring different areas of programming, including software development and web development, as I continue to grow my skills and experience. I enjoy problem-solving, working on coding projects, and learning more about the tech industry. Outside of academics, I am an outgoing and active person who enjoys working with others. My ability to communicate effectively, combined with being fluent in both English and Spanish, allows me to engage with people from different backgrounds.
